## CAN CARRY KENTUCKY

Ex-Chairman Roberts  
Certain of It.

Democrats Have Nominated  
Their Weakest Man.

No Gold Democratic Ticket Probable.  
Kansas Nominations.

(BY DIRECT WIRE TO THE TIMES.)

CANTON (O.), July 25.—[Exclusive Dispatch.] "There was never so good a chance to make Kentucky Republican as this year. We are going to carry the State for the McKinley faction and we are going to elect Yerkes Governor and Judge Oval to the Court of Appeals, and I believe all of the other state candidates with them." Thus spoke Sam J. Roberts of Lexington, former Kentucky State chairman, soon after a conference with President McKinley.

"On what do you base these expectations?" was asked. "We have nominated the very strongest candidate for Governor, and the Democrats have nominated the very weakest. The leading Democrats of the State virtually admit this. They said in their convention that Beckham, the beneficiary of the Gooch law, would weaken the party because of the general aversion to that partisan law. That same aversion will make strong the Republican judicial candidates."

"On what lines and on what issues will you make your campaign?" "Largely on local matters; on the Gooch election law. Our people are thoroughly aroused over that infamous measure, and the feeling is strong that there is no use to fight for anything until that is blotted out, for if they did vote on the measure they would not be honestly counted so long as that law remains in force. Of course, we will not slight nor ignore the issue of the national platform, but from the very nature of the situation they will not be at the most conspicuous in our State. No, I do not think the money question will enter into the contest to the extent that it did four years ago."

An effort is being made to get Roosevelt to stump Kentucky from end to end.

SWAPPING IN KANSAS.

DEMOCRATS TAKE THEIR FILL.

(A. P. NIGHT REPORT.)

PORT SCOTT (Kan.), July 25.—The Democratic organization of the State convention here with unexpected ease swung in line for the report of the Conference Committee, trading the office of Associate Justice for that of Attorney-General. As soon as this action was made known to the Populist gathering it was attacked by David Martin for Associate Justice by acclamation, selected John W. Breidenbach of Topeka for Governor, and took issue on the nomination, when it finished the nominations.

THE COMPLETED TICKET.

(A. P. NIGHT REPORT.)

PORT SCOTT, July 25.—The State ticket completed by the Democratic convention was finally endorsed by all three—Democratic, Populist and Silver Republican. It follows:

Associate Justice—David Martin, Populist.

Governor—John W. Breidenbach, Populist.

Lieutenant Governor—A. M. Harvey, Populist.

Secretary of State—Abe Fraake, Democrat.

Treasurer—Conway Marshall, Democrat.

Attorney-General—Hugh P. Farrelly, Democrat.

Superintendent of Insurance—Webb McCall, Silver Republican.

Electors-at-large—R. W. Turner, Silver Republican; J. B. Fugate, Democrat.

First District—James Falon, Silver Republican.

Second District—C. P. Carstensen, Democrat.

Seventh District—H. J. Roestel, Democrat.

The platform adopted by the Democrats demands the repeal of the Gooch law, the establishment of a public tribunal clothed with all power necessary for the complete and efficient regulation and control of railways, and legislation for the regulation of passenger freight rates with complete control, as well as the appointment of a railway auditor with power to examine the books and accounts of railways. The platform refers to Bryan as "that unquarrelled hero, the lion of the West."

The platform also declares for the establishment of a State oil refinery and the distribution of native oil to the people of Kansas at cost; provides for a law taxing banks and for the creation of a fund, to be under the control of the State Bank Examiner, to be used in reimbursing depositors in banks that have become insolvent.

ARIZONA CONVENTION.

(A. P. NIGHT REPORT.)

PHOENIX (Ariz.), July 25.—Members of the Territorial Democratic Central Committee and proxies met this morning to fix a date and place for the territorial convention. At the first session nothing was done. Kingman getting thirteen votes, Tucson thirteen and Phoenix fifty. Another meeting was held this afternoon when a compromise between the north and south was effected in favor of Phoenix. The convention is to be held September 12.

MICHIGAN DEMOCRATS.

NAME MAYBURY FOR GOVERNOR.

(A. P. NIGHT REPORT.)

DETROIT (Mich.), July 25.—Hon. William C. Maybury, Mayor of Detroit, was this evening unanimously endorsed by the Democratic nomination for Governor of Michigan by the Democratic convention.

The resolutions adopted by the convention deplore the "corrupt" influence of wealth upon our social and political machinery, and deplore the recent campaign of three millionaires for the office of Governor, and pledge the State Democrats to:

"First, prompt repeal of every charter exempting corporations from the equal burden of taxation with the value of their unearned stores of wealth."

"Second, a specific tax upon the great mining interests of the State, levied in accordance with the value of their unearned stores of wealth."

"Third, a tax upon existing franchises of a semi-public character commensurate with their earning power."

"Fourth, regulation of property taxes, so as to prevent the shifting of the bur-

den onto the shoulders of productive labor."

"Fifth, the prohibition of the granting of further franchises by municipalities in the name of Russia's alleged fixed principle to prevent any power but herself from proceeding to Peking in sufficient force to be effective, and to procure for herself sole occupation, either as conqueror or peace-maker."

ETHELBERT WINS IN RUSH.  
A. P. NIGHT REPORT.  
NEW YORK, July 25.—The chief  
event today's racing at Brighton  
Beach was the Islip stakes, in which  
eight were down to go, but all but Sky  
Scraper were afraid of Ethelbert and  
Imp, and declined the issue. Imp cut  
out the pace, joined by Sky Scraper at  
the lower turn, and they ran like a  
team up the back stretch. At this  
point Ethelbert came on with a rush,  
and in a sixteenth of a mile was half  
a length in front. He won easily,  
pulled up. Imp is certainly out  
of condition, and staggered in third,  
two lengths behind Sky Scraper.

**Terrible Engagement Reported—Gov-

**BY DIRECT WIRE TO THE TIMES.**  
WASHINGTON, July 25.—(Exclusive  
Dispatch.) Taken all in all this country  
is pretty busy, as there is another  
war to be attended to right away. The  
State Department was notified today  
that the Colombian rebels are threat-  
ening to bombard Panama, and an ap-  
peal was made for protection. Under treaty  
arrangements, this government is  
bound to prevent any such performance,  
and Minister Merry has been told to  
notify the rebels that the United  
States will hold them accountable for  
their acts. This means that if they at-  
tack Panama they will be attacked by  
the United States.

**THE AMERICAN FLEET.**  
A. P. NIGHT REPORT.  
WASHINGTON, July 25.—The State  
Department has received a dispatch  
from Consul Gudgeon of Panama, say-  
ing the revolution there has been a  
serious turn. The attacking force—

party to the treaty of 1846, which guar-  
antees the neutrality of the isthmus,  
the United States find an immediate  
protest against the bombardment  
which would destroy the terminus of  
the isthmian railway.

Some scrippers credited with having asserted that the land on which they have made application to place their rights is their own, and they will not give one inch to the locator. Strangers to say not one of them has made any appearance in the Bakerfield field. They are there, no doubt, but are simply under cover as has been their tactic since the beginning.

Pitiful Fate of Henry Weyrich of Los Angeles in Alaska.  
His Companion Escaped With His Life and Has  
Returned to This City With the Diary.

Henry Weyrich, a motorman, who left the service of the Los Angeles Railway Company in the winter of 1916 to seek his fortune in the Klondike, has starved to death. His comrade, L. D. Denny, who narrowly escaped the same fate, returned Saturday in safety to his home at Adams and Hoover streets in this city, bringing the news of Weyrich's death.

Mr. Denny was with Weyrich when he died, and brought back to a brave little mother and sister, who live out on Ninth street, just beyond Park View avenue, a hundred loving messages and a diary in which the young

## ICEMAN'S TROUBLES.

Cooling Off a City is a Hot Occupation.

We Used One Hundred and Twenty-Five Tons of Ice Yesterday.

List to the song of the ice man: In June: "Good morning, madame. Would you like to have any ice today?" In July: "Any ice today?" In August: "Ice. K-k-k-k. Oh, ap."

This is the season when the ice man is supposed to be gliding over suffering humanity. But actually he refuses to glide. Keeping a city cool has its troubles like other kinds of business.

It is not the ice man's fault. When it is very hot he objects because too many people buy ice and the manufacturer and distributor are crowded past the profit point. Wherefore being the ice man is not altogether the map Johnny Carroll of the vaudeville show, but the great public believe.

On a day like yesterday it takes about one hundred and twenty-five tons of ice to keep Los Angeles in a proper chill.

To bring a chill where they will do the most good requires in one day services of twenty-five wagons, Angeles Chamber of Commerce on his arrival in this city.

At a meeting of the Board of Directors of that organization yesterday, Messrs. A. B. Case, J. W. McGowan and R. J. Waters were appointed to act as a special committee to wait upon Speaker Henderson and arrange for extending to him a suitable reception.

Gloomy Reports Continue to Come from Nome.

Not Mill at Kelvin—Sale of the New Group—Notes.

Scarcely a day now passes that letters are received from parties who left Southern California for Nome in search of gold, and the tenor of all of them is one of regret.

There is a general feeling that the gold fields of the state are being exhausted, and that the time has come when the state must turn to other resources.

## EXPORTS OF COPPER.

A marked feature of the copper business is the enormous quantity of copper that is going from the United States to Europe.

The total foreign shipments of copper for the first six months of this year amount to 100,000 tons.

During the twelve months ending June 30, 1917, 125,000 tons were exported, valued at \$10,000,000.

Estimating the value of this year's shipments at an average of 17 cents a pound, gives an aggregate value of \$10,000,000.

It is usually supposed that Southern California is the main source of copper, but it is not so.

The main source of copper is the Black Hills of South Dakota, which has been mined for many years.

**ROYAL NEWSBOY.**

**Charles, Descendant of Esmond, Last King of Ireland.**

For the busy shoppers and business men who daily patronize the little newsboy who is buying from one in the crowd of First and Spring streets, real-estate men, who, by the way, has the dramatic cognomen of Charles Esmond, says he is the only living descendant of Esmond, the last of the Kings of Ireland.

Charles Esmond was assassinated in 1841, and his father, Sir Thomas Esmond, died in 1842. Charles Esmond, the only living descendant of Esmond, came to America when he was a young man.

**ALAMEDA POLITICS.**

**The "Push" Versus "Reform" in the Big County.**

**Dalton Making a Hard Fight for Congress—The Legislature.**

From a source well-informed in regard to political affairs in Alameda county, and the Third Congress District, The Times is in receipt of an interesting summary of the situation as it relates to the Congress and Legislature.

The Alameda contingent took a prominent part in defeating the machinations of Dr. Burns at the regular and extra sessions of the last Legislature, and the indications are that a hard fight will be put up by the adherents of the Mexican to secure control of the Republican county and district delegations.

In the Congress fight, Representative Metcalf has opposed to him Henry P. Dalton, who is serving his second term as Assessor of the county.

Dalton is backed by Dr. George C. Parsons, who was a prominent candidate for Governor on the Republican ticket.

In the Legislature, Dalton is backed by Dr. George C. Parsons, who was a prominent candidate for Governor on the Republican ticket.

**HOW A TOMBSTONE MAN DIED**

**Bare-devil Fashion, Unarmed, He Faced a Revolver.**

**Close Friends May Each Other About a Disputed Call.**

**TOMBSTONE (Ariz.) July 25.**—[Regular Correspondence.] John Boyett, charged with the murder of Warren Earl, has been discharged from custody by Justice Nicholas of Wilcox, the magistrate holding the evidence insufficient for presenting the case to the grand jury.

Boyett was represented by O. G. O'Connell. There seems to be little doubt that Earl expressed readiness to meet Boyett, that their misunderstanding be at once settled in an appeal to arms.

The first named was abusive in the extreme. Boyett ran out of the saloon where the quarrel began, secured two revolvers and returned. Finding Earl in the door of the saloon, he fired a shot at him, but without effect.

Earl disappeared, as did every one else in the vicinity. Boyett fired more shots into the floor to show he was still on deck. Then Earl, true to his record of dare-devil recklessness, returned to the saloon by another door. Boyett, from the middle of the room, warned him not to approach. But Earl continued to advance toward him and, throwing open his coat, said: Boyett, "I am unarmed. You have all the best of this." The saloonkeeper, Brown, peering from behind the bar, his haven of refuge, was the only witness.

When Earl had approached within ten feet Boyett finally fired a single shot and Earl dropped forward on his face dead. On the body, in the right pocket, was found only a small pocket knife. Warren was the youngest of the Earl brothers, who in their night on fame by standing off the allied rustlers and country of the Coconino county. Wyatt, one of the oldest and the leader of the clan, is in Nome, running a gambling house. A report has come that he was shot and badly wounded a month ago.

A few days ago the engineer of a passenger train on the New Mexico and Arizona railroad pulled up his train in time to avoid running over the body of a man on the track three miles south of Benson. The corpse was doubled up, face downward, between the rails and at first it was thought that death had come from lightning. But investigation has developed a case of murder. Deceased was identified as Francisco Moreno, a Mexican who had started from Fairbank the day before to tramp to Benson, where relatives reside. He had exhibited a maverick sum of money before setting out. Death had resulted from a smashing blow on the temple with a club or iron bar. Then an attempt had been made to burn up the body in a large fire built near the track.

Two falling of success, the murderer or murderers placed the body on the track, where the evidence of the crime might be destroyed under the wheels of the morning train. The officers have no clue.

Antonio Rosa and Juan Vazquez, well-known cattlemen on the San Pedro River, were the closest friends until a few days ago. Then they quarreled over the ownership of a calf. In the gun fight that followed one was killed and the other so wounded that he lived only a few hours. The ownership of the calf is still undisputed and the argument is likely to be taken up by the employees of the dead cattlemen.

Two Indians, Ray Chisold and James Weiss, killed an old Mexican at Hiesbe Saturday night by carelessly riding him down beneath the heels of their horses. The old man, Christofel Parra by name, was walking near the snailer dump. Being deaf, he did not hear the noise of the approaching horses, and turning to the side, walked to the middle of the road.

Billy Stiles, a "rain robber" who has again surrendered and offered to turn State's evidence against his fellows, is now in the penitentiary at Yuma, where he was taken to insure silence till the time comes for him to give his evidence in court.

There appears every probability that the Halderman brothers will be hanged August 10, as by the court decreed. The death watch is over both prisoners and the scaffold has been erected and tested. If the rise made in the assessment of the Copper Queen Company is sustained, Cochise county will have an assessment roll this year aggregating \$1,000,000. All the county officers have promptly put in their salary claims under the new classification, which doubles the salaries of several of them. The Board of Supervisors has thrown out all the excess claims and suits are threatened by the officers. The Copper Queen Company is fighting the extra assessment.

The two new journals at Bisbee have consolidated under the joint name of "Cochise Review" and Bisbee Daily Herald. Paul Hull is managing editor. A newspaper is to be started at Naco.

Work on the new railroad from Naco on the border line to Naco-Sari and the Bonora mines of the Copper Queen Mining Company has been formally commenced, the first shovelful of earth.

Jose Alcocer, representing the Mexican government, Representatives of the mining company and a trainload of invited guests came down from Bisbee to witness the ceremonial. Robinson & Conboy of Phoenix have the main grading contract. It is anticipated that Naco is to be another Nogales. It is a port of entry and the Mexican government has just moved a custom house thither.

Work is progressing in Bisbee on a new hotel, that is to be one of the most important edifices of the kind in the Southwest.

Geo. L. Bender of Los Angeles has taken a position in the Copper Queen store at Bisbee.

## STUDYING BRITISH ARMY.

## COL. SANGER COMPLETES INVESTIGATION IN ENGLAND.

(LA. P. DAY REPORT.) NEW YORK, July 28.—A dispatch to the Tribune from London says that Col. William Sanger, who has been studying for months the British system of auxiliary forces, under instructions from Gov. Roosevelt and from Secretary Root, has completed his investigation here and has started for Switzerland with Mrs. Sanger. He will probably devote several weeks to examination of the Swiss military service, which is unique. Europe being anomalous but effective system of compulsory volunteering.

Col. Sanger's work in England has been thorough and his report will include a comprehensive survey of the operations of the British auxiliary system of regular and auxiliary forces during the war in South Africa. He has been particularly interested in the second line of British reserves consisting of militia, volunteers and yeomanry, the information which he has collected will have a direct bearing upon the American problem of establishing a homogeneous reserve, or auxiliary force for the army through the cooperation of the Federal and State authorities when the relations of the National Guard to the regular army have been determined.
